Orality: making Him known through creativity & culture

ION is a network dedicated to advancing the Kingdom of God around the world, using biblically-based, culturally-relevant methods and strategies, recognizing that majority of people in the world (even in the US) are Oral Preference Learners and Communicators. Join us in Orlando as we gather to learn from leaders and seasoned practitioners, how God is at work through the Orality Movement. Discover how each of us can be more effective followers of Jesus, every day, wherever we happen to be.
